

STOCK THERMOFORMED PACKAGING

Wide range of sizes, materials and cavity configurations for a custom look without the tooling costs.

No minimum order quantities to tie up space and working capital.

Next-day delivery ensuring you get the packaging need, when you need it.

SQF Certification provides confidence your packaging adheres to the highest quality and cleanliness standards.

Available ESD (Electro-Static Dissipation Materials) for your critical anti-static applications.

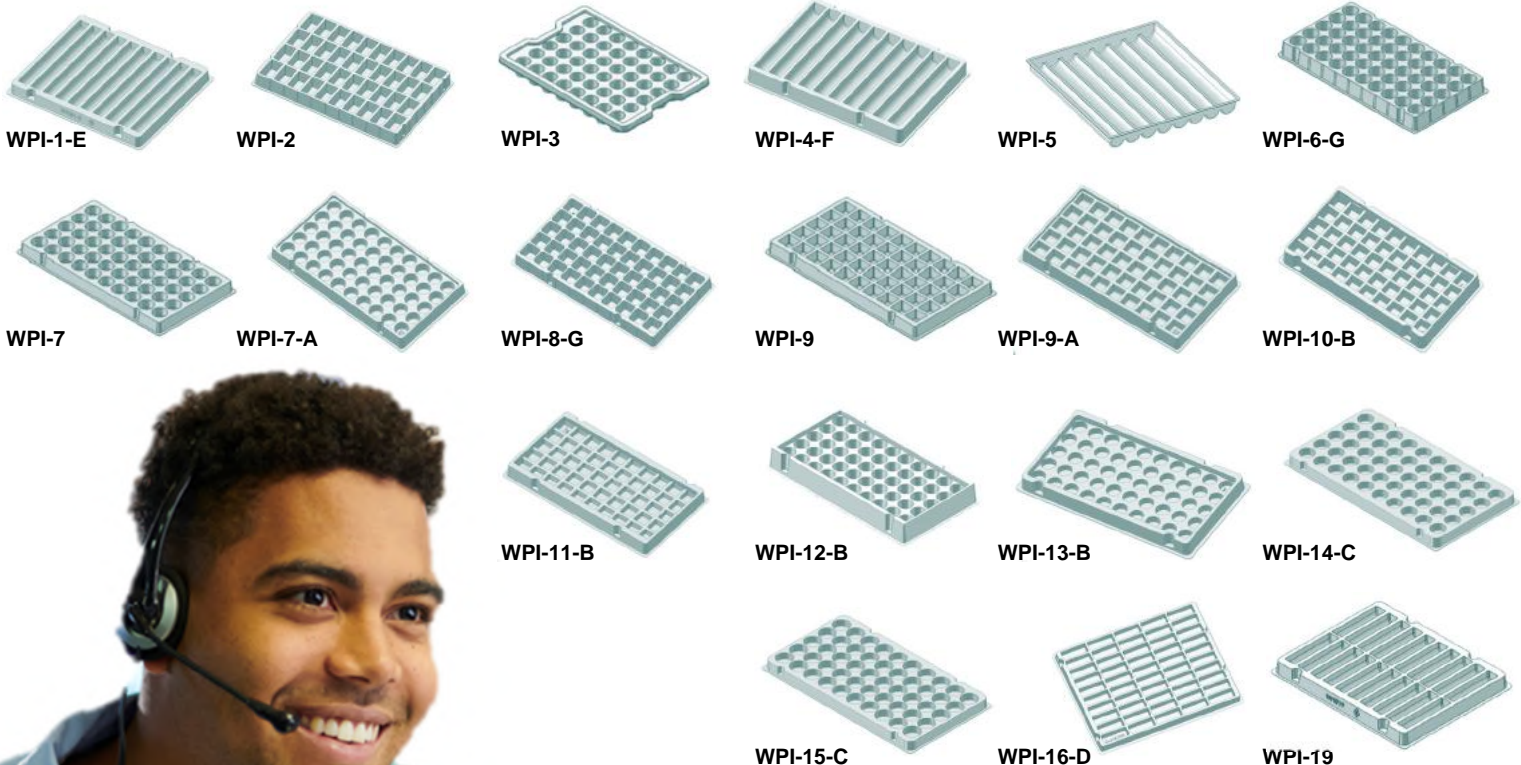

GENERAL PARTS TRAYS (High Impact Styrene)

Open-tooled thermoformed packaging trays for components.

Ideal for healthcare, cosmetics, automotive & general manufacturing applications.

- Available in black or white (other colors, gauges, and materials available upon request)
- Nesting or de-nesting slots for stacking and handling
- Constructed to accept internal snap covers
- Can be used with or without covers (add 5/16" to tray height)
- Trays and covers can be purchased separately

LET'S GET PACKAGING

CUSTOM MANUFACTURING & DESIGN

- Complete Material Flexibility
 - .0075 mil to .080 mil
 - PET, HDPE, PVC, PP, PS, including Co-extruded, Laminated and Static Control Materials
 - Small, Medium and Large Volume
- Fully Staffed Design and Engineering Department
- 3D Modeling and Prototyping Capabilities
- In-house Tool Shop for Fast, Cost Effective Tooling

SPEED TO MARKET, INCREASED EFFICIENCIES & SAVINGS FROM CONCEPT TO CUSTOMER

FULL SERVICE PACKAGING SOLUTIONS

- Packaging and Shipping Supplies
- Equipment Sales and Service
- Retail Packaging Solutions
- Convenience Consumables
- Specialty Films
- Safety Supplies
- Janitorial and Sanitary Products
- Packaging Equipment

VALUE-ADDED SERVICES

- In-house Design
- Packaging Engineering
- Prototypes/Models/Samples
- eCommerce Solutions
- Custom Billing
- Point of Purchase Displays
- Inventory Management
- Logistics Services
- Packaging Use Assessments
- On-Site Packaging Management
