

CASE STUDY

NURSERY & AGRICULTURE

SupplyOne standardized stretch film packaging for an agriculture and crop production supplier to improve pallet stability and material performance across distribution.

Fertilizer pallets wrapped with stretch film

OVERVIEW

An agriculture and crop production supplier needed reliable machine-length stretch film to support palletized shipments of fertilizer and crop care products. They were seeking consistent film performance, dependable supply, and efficient material usage to support daily operations.

THE SOLUTION

SupplyOne implemented a standardized stretch film program focused on load containment and operational consistency.

SupplyOne Partners With You to Identify What's Best for Your Business

NURSERY & AGRICULTURE

Load containment up by 31%

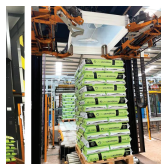

Film usage down by 22%

26% Cost savings

SupplyOne improved pallet stability and packaging consistency for agricultural shipments.

Supplied machine-length stretch film with one-sided cling to improve pallet stability.

Matched film gauge and dimensions to existing wrapping equipment.

Established a reliable supply program to support ongoing production and shipping.
